

SPECIAL NOTICE
Bremerton is changing our inspection
routine effective April 18, 2005

In an effort to provide greater customer service to our customers in the Kitsap County Area, the Bremerton Electrical Inspection Program is realigning our inspection areas into five (5) inspection territories.

The assigned electrical inspector will provide electrical inspection services in their assigned areas, five days per week, Monday through Friday. Our inspectors will make every attempt to complete their assigned work each day, but should that not be possible due to excessive workload or other unforeseen conditions, the requested inspection (s), will be completed the following work day.

Each inspector is usually available to answer code questions between the hours of 8:00 and 8:30 AM, each day. All messages left after 8:30 AM will be answered the following day. In the event that you leave a message between 8:00 and 8:30 AM, every attempt will be made to return that call before the inspector(s) leave the office that day.

If you need to talk to an electrical inspector after 8:30 AM, please contact Roger Chick, Lead Inspector at 360-415-4034. Roger is normally available until noon each working day. All calls after 1:00 PM will be transferred to either the Electrical Supervisor, Gerry Jessen or to the inspector's voice mail system.

Since this is a new procedure for this office, please work with us to make this transition as smooth as possible.

Thank You,
Bremerton Electrical Inspection Section
